Safety measures related to the office

Measures related to the highest areas of risk

1. The kitchen will be closed immediately and will remain closed until it has been decontaminated.
2. The workstation as well as all other surfaces where the staff member worked will also be decontaminated.

Measures related to the office in general

1. Close contacts will be tested and will self isolate.
2. All staff will continue to continue adhering to all the safety precautions and regulations.
3. Restriction of the number of staff using of the kitchen at any one time will be strictly adhered to.

Measures to be addressed by the landlord

The landlord will be informed of the positive Covid-19 staff member in order to ensure that appropriate measures are implemented to sanitise the ladies restroom.

Compliance of Occupational Health and Safety Act
Resources

The World Health Organization (WHO) and the International Labour Organization (ILO), as well as the Canadian Centre for Occupational Health and Safety (CCOSH) have also published practical information for workplaces.
